FAQS

What if I don't have internet access?

Call us at (800) 246-4221, and we'll help you with your application.

What if I need help registering for an account or accessing my account?

If your email or password isn't working or you have a new email address, contact us at (800) 246-4221.

How long does it take to process my application?

Non-emergency applications are processed within 45 days. Crisis applications are processed more quickly. Missing information is the most common cause of delays, so complete every section and upload all documents before submitting.

How can I check my application status?

Log into the application portal at mylieapwyo.org anytime to view your status.

How will I be notified of a decision?

Once your complete application is processed, LIEAP will notify you by email, text or by letter to your physical mailbox. The notice explains whether you were approved or denied, your total benefit amount, and which provider will receive the payment.

How and when will I receive my benefit?

Benefits are paid directly to your heating provider, not to you. Once approved, your benefits are secured. LIEAP notifies your provider of the approved amount, your provider invoices the LIEAP office, and LIEAP pays your provider, who applies it as a credit to your account.
